New Case Numbers Last 10 Days

Date ▼	Active	New
2/14/2022	9,805	158
2/13/2022	10,635	364
2/12/2022	11,533	-
2/11/2022	12,661	270
2/10/2022	13,778	370
2/9/2022	14,732	396
2/8/2022	15,318	507
2/7/2022	15,798	2
2/6/2022	16,744	213
2/5/2022	17,969	388

BUSD Testing Numbers as of 01/31/22 - 02/11/22

528

Total Tests Released ⓘ

38

Positive Tests ⓘ

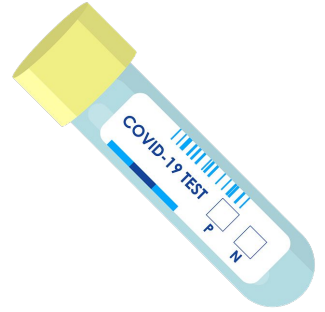

7.44%

Positive Test Rate ⓘ

These numbers only include those tests conducted through the schools PCR testing. 29 positive antigen tests. We do not know how many antigen tests were administered as families may not report negative results.

Overall testing positivity in the county is 9.9% per Sonoma County Department of Human Services

Testing

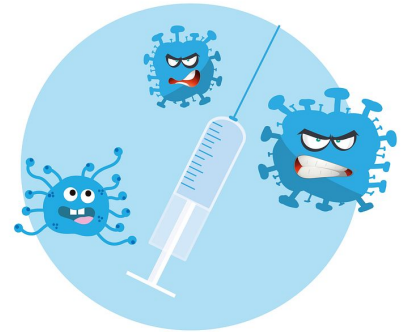

- Test results are now returning in 36 -72 hours
- Our total numbers as a district are not accurate, as many families utilized the home antigen test kits that were sent home in backpacks on Friday, January 7th
- We are well stocked with PCR test kits and can continue our testing program
- We have antigen tests kits to use with staff
- CalOSHA standards require the OTC rapid tests be observed by the employer/supervisor or a health-care professional

Sonoma County TK-12 Cases, 2021-2022 School Year

Sonoma County Public Health has not updated these numbers.

Sonoma County Vaccination Rates

- 80% of the population in Sonoma County is vaccinated against COVID-19
- 45% of 5 to 11-year-olds are vaccinated
- 74% of 12 to 15-year-olds are vaccinated

What to Expect in the Next Few Weeks

- State will review the mask mandate for schools on 02/28/22
- The county health officer has moved up the date to 2/21/22 for twice a week testing for those who are eligible for their booster but do not have it
- Temporary health order restricting large gatherings has expired
- BUSD may host more vaccination clinics
- Governor Newsom is expected to release an endemic plan in the next few weeks

Thank you
